

***Be Ember Aware!* is a new publication that shows where a home is vulnerable to embers during a wildfire, and offers instructions on what to do to reduce the threat.**

Created with funding from a Wildland Urban Interface Community Assistance grant from the Bureau of Land Management, Nevada State Office, this publication is available for FREE for educational purposes to firefighting professionals, community groups, or other interested groups in Nevada and the eastern Sierra Front. Contact Jamie to request free copies.

Because of the high cost of production, which includes the purchase of limited use rights to AP Images and National Geographic photographs, we have printed additional copies using non-grant funds in order to make them available outside of Nevada and the eastern Sierra Front. We can now offer them to you in large quantities AT OUR COST, which includes shipping and handling.

Minimum order	100 copies = \$42.00
Bulk orders*	350 copies = \$147.00
	700 copies = \$294.00
	1050 copies = \$441.00

*Available in increments of 350
